January - July 2021 Program & Event Guide

"Promoting Community Wellness"

# From the Superintendent

The Parks and Recreation Department is very excited to meet the growing needs of our community and will be embarking on an endeavor to enrich our facilities and programs for our residents. People are becoming more aware of the importance of parks and recreational green space. There is a greater interest in exploring these opportunities during valuable leisure time. Putting in place the most beneficial programs, activities, and facilities is very important to us as we evolve.

As area residents, you continue to show your pride in the community by giving your support and becoming involved. In the upcoming five-year master plan, we would like to invite you to participate in our public input sessions to promote individual interests and future community activities. This process is instrumental to collecting, analyzing, and ultimately setting our department's goals. Getting involved is a great start to elevating the City of Auburn as a unified community and allows our city to flourish.
